Louise Wilkens		X
Troy Lipani	X	
Mark Hasting	X	
Vivek Rao		X
Fred Gladstone		X
Robert Peason		X
Tom Shearer		X

Other Attendees:

David Kois, Planning Director & Deputy Zoning Officer

The following points were discussed.

- A brief discussion took place regarding a potential referendum question that would expand how open space trust funds can be expended in the future. If a question were to be on the ballot it would have to be prepared and submitted in August.
- Four properties were discussed that are potential acquisition targets.
- David advised the GIS intern is still making updates to the plan. However, the intern will be leaving shortly.
- The Planning Office requires feedback from the open space committee on the criteria that would be used for evaluation of properties. The initial discussion at the last meeting indicated that the criteria may have been complex. However, in order to create a distinction between properties, it cannot be too simple.
- Mapping in the future will show trails, trail easements. Often trails and easements are discussed but since it is not depicted on maps it is difficult to reference.

Discussions ended at approximately 7:45 p.m.

Respectfully Submitted,

Kevin Sluka
